

For Immediate Release

Join two junior ecologists on a mission to save the environment!

*The Adventures of Nick the Ecologist
and His Robot O-Zone: The Mystery of the
Missing Trees*

Nick and his best buddy, O-Zone the Robot, are both junior ecologists learning all about the delicate balance between living things and their environment on Earth. But Nick and O-Zone are also able to explore any galaxy they want through the amazing Gazoom, a solar-powered spaceship invented by Nick's father.

Follow the adventurers to the end as they fight an intergalactic battle for the sake of all planets—and the future of children and robots everywhere.
